

Introduction

Hello,I am Prashanth Kodimala from Hyderabad. I have completed MCA (Master of Computer Applications) from Kakatiya University In 2016.

I have been working as a Executive in vigilance department at Spicejet Airlines for the last two years. I have worked as a Associative in Security&vigilance department at GMR Hyderabad International Airport from 2017-2019, My job deals with Safety and safeguarding of civil aviation.

I also have knowledge in the Core Java and HTML

Coming to My family background we are five members ,My Father is a farmer and mother house-wife I have elder brother and younger brother

My hobbies are Surfing on net and watching movies. Along with this I like learning new skills

my short term goal is to became a Java developer in a reputed company and my long term goal is to became a valuable person wherever I go.

Why this course:-

I chose Java Developer because it'll lead to a career. It is a very Huge demand course, and i feel it will help me with my practical coding & analytical skills. And i am interested in Java developer. Also it gives me the opportunity to Work for MNC companies. the industry keeps expanding because everything relies upon technology now. how much demand would depend on IT technology so I desided to java is right path for me.
